Welding and Joining Technical Workshop

1. **Front Cover**
2. **Executive Summary**
3. **Steering Committee**
4. **Welcoming Remarks**
 - 4.1. Jim Merritt – (PHMSA)
 - 4.2. Tom Siewert - NIST
5. **Supporting Remarks**
 - 5.1. U.S. Office of Pipeline Safety – Bob Smith (PHMSA)
 - 5.2. National Energy Board of Canada – Joe Paviglianiti (NEB)
 - 5.3. Plastic Pipe Institute/Plastic Pipe Database Committee – Stephen Boros (PPI/PPDC)
 - 5.4. Recap of R&D Forum Output – Marie Quintana (Lincoln Electric)
6. **Keynote Addresses**
 - 6.1. Materials Joining Technology Advancements for Future Pipelines – Nathan Ames(EWI), Roger Howard (BP), and Mark Hudson(BP)
 - 6.2. Joining Standards (nonmetallic) – Stephen Boros (PPI/PPDC)
 - 6.3. Advanced Welding Repair and Remediation Methods for In-Service Pipelines – Bill Bruce (EWI)
 - 6.4. Improved Inspection and Assessment Methods for Girth and Repair Welds – David Horsley (TransCanada)
 - 6.5. Optimizing Weld Integrity for High-Strength Steels - Yong-Yi Wang (EMCC)
 - 6.6. Underwater Wet Welding – Steven Liu (Colorado School of Mines)
7. **Working Group Reports**
 - 7.1. Weld Design in Emerging Materials – William Mohr (EWI) and Marie Quintana (Lincoln Electric)
 - 7.2. Construction – cochairs – Roger Howard (BP) and Nathan Ames (EWI)
 - 7.2.1. Appendix I – Attendees
 - 7.2.2. Appendix II – Construction Notes
 - 7.3. Weld Inspection and Assessment Methods – Mark Lozev (EWI) and David Horsley (TransCanada)
 - 7.4. Weld Maintenance and Repair – Jim Swatzel (Columbia Gas Transmission) and Bill Bruce (EWI)
 - 7.4.1. Appendix I – WTIA_2000 action-plan
 - 7.4.2. Appendix II – Discussion Notes
 - 7.5. Joining Issues for Nonmetallic Materials – George Ragula (PSE&G)
 - 7.5.1. Appendix_I – Presentation, Patadia
 - 7.5.2. Appencdix II – Presentation, Woods
